Wise Men

THE Christmas season annually brings to mankind the thoughtful hour of serious retropection and the importance of governing their affairs in a manner befitting wise men.

The Spirit of Christmas is the ideal in the absolute, but quite often it carries with it hardships to men of families and brings them face to face with their shortcomings and failures to substantially build structures of supply for those they love.

Maybe such hours have been yours—and maybe right at this moment you realize the necessity of changing your course. It is never too late, you know.

If so, we feel we are conferring a service in again calling your attention to the fundamentals of peace and plenty which, briefly, are Vision and Thrift.

Vision is the understanding that all is well with our ever-progressing world. Thrift is a common sense conservation of our talents—which may be labor or money.

After all, money is only stored-up labor. So to save money is to intelligently store up labor—to distribute or equalize it over the span of life.

The New Year is at hand—not to dissipate on idle resolutions which will never be kept. On the other hand, a sincere desire to build up an independence for your loved ones and your own old age, will be its own resolution.

This institution wishes you success in such resolves and stands in Roy ready to serve you in fulfillment of such worthy endeavor.

NOTES OF THE

CACTUS CLUB

(By Joyce Laumbach, Class Reporter.)

The intertainment and refreshments committee met last Tuesday afternoon.

The party given last Thursday night was a big success. The Juniors and Seniors are very well satisfied with the results. There was 26 persons present. Many games were played before refreshments were served and the party broke up about 11:30 and everybody went home.

Goldie Russel, son of Prof. J. E. Russel, visited the High School last Thursday afternoon. All of Goldie's friends were glad to see him after a few years absence.

Tests were given in all the subjects last week to see who would be exempt from the exams. "Lucky will be the one who is exempt."

We are all enjoying ourselves this week.

The morning and afternoon classes in Agriculture have been doing some very good work the last semester and visitors are cordially invited.

A mistake was made in last week's S. A. It said that Conard Evans had been elected President which was an error. Conard was elected Vice-President.

We understand that the Sophomores are thinking of following our example by organizing a Sophomore Club.

Everybody was planning for Christmas this week.

Mills was to play basket ball with Roy last Friday but the game was postponed until a future date.

The English IV grades were from 80 to 97 and the Physiology grades were from 0 to 99 so that shows in which class there were freshmen.

Next Week.
